

Discovery Pack: Crystals and Gemstones

By Patience Coster

Description

Packed full of fascinating facts, awesome activities and exciting illustrations, this is the ultimate kids' guide to crystals and precious gems. Inside this book, you'll find everything you need to know about why gemstones are formed and how they have been valued throughout history. The poster pictures precious minerals on one side, while the other side gives facts on diamonds - from how they are mined to the world's most famous diamonds. The pack also includes over 100 gemstone stickers. Guarantees hours of fun for budding gemologists aged 7 and up.

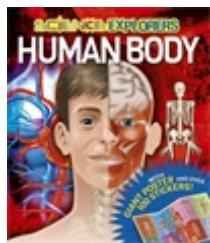

Key Selling Points

- As well as a fact-filled book, this pack also contains a full colour, double-sided poster (measuring 520 x 440mm) and two sticker sheets.
- The clear, informative text unpicks the science behind crystals and gems in a fun and engaging way.
- Illustrated throughout with colourful, exciting photos of crystals and gems.
- Approx 4,500 words.
