

Dig Up A Diplodocus

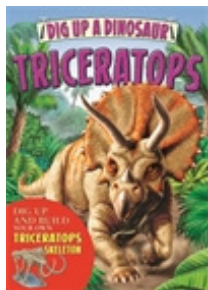

Description

This book is your chance to go on a dinosaur dig! Press out the model pieces and put them together to build a diplodocus skeleton - just like a real paleontologist. There's plenty of information about this amazing dinosaur, too. Perfect for all dino fans aged 7 and up.

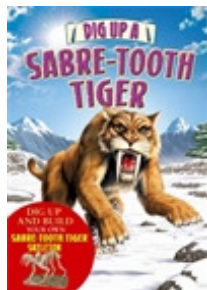

Key Selling Points

- Build a fantastic model of a Diplodocus, 55cm long.
- The model is easy to build by slotting together the pieces that you press out from the book.
- Learn all about Diplodocus and other dinosaurs. Find out their size, what they ate and how they lived.
- There are six model boards in the book and really clear instructions on how to build your model. The dinosaur is presented as bones in a rock so the reader can "excavate" them like a real paleontologist.
- Approx 1,500 words.
