

Science Experiments to Amaze your Friends

By Thomas Canavan

Description

Hold on to your lab goggles and get ready for *Science Experiments to Amaze Your Friends!*

From home-made hot-air balloons to vinegar volcanoes, this book is bursting with brilliant experiments that will teach you everything you need to know about the appliance of science. All of the projects can easily be performed at home, and clear instructions are accompanied by entertaining images and informative text. It's the perfect how-to guide for young scientists aged 8 and up!

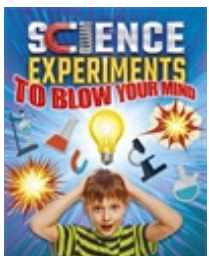

Key Selling Points

- The easy-to-follow instructions and engaging text are illustrated with clear step-by-step diagrams and exciting photographs.
- The experiments cover curriculum topics - such as forces, photosynthesis and electricity - and help to reinforce school learning.
- All of the experiments use readily available household items and are easy and safe to carry out at home.
- Approx 17,000 words.
